[Planning 2018-21.xlsx](#)

Hi Ryan,

Attached is Region 1's planning and contractor survey cost estimates. Note: there are assumptions in these estimates as they are based on current contractor support and current rates/costs.

For the NLDS line item, that site closed in December but we may want to monitor mound stability after storm major storm events – and this would not be every year as indicated.. only if a major storm event occurred.

Please let me know if you have any questions. Thanks, Jeannie

Bridgette,

For the planning exercise we are conducting now, the Planning View worksheet in the critical one to fill out. We will also eventually need the Contract View worksheet when these surveys become work assignments/task orders. The Planning Example is just provided as guidance for filling out the planning view.

So we definitely need Planning View. And if you plan to use a contract vehicle in the future to complete the survey, you might want to fill out the Contract View as well.

Thanks,

Ryan

Juliette-

Do you want all 3 sheets filled out or just Worksheet 1 ("ICGE – Planning View") and 3 (ICGE – Planning Example)?

Thank you,

Bridgette

Juliette –

Thank you for the reminder. Sydney has been working with me to draft the proposals as a precursor to putting together the detailed cost estimates. However, I will not be able to meet the 3/15 deadline. My goal is to send you the estimates by COB Friday. If that changes, I will let you know.

In these next 4 years, R10 will be proposing 4 surveys which covers 6 sites:

FY18 – Siuslaw North Site; Siuslaw South Site

FY19 – Coos Bay Site H; Mouth of Columbia River – Deep Water Site

FY20 – Yaquina North Site; Yaquina South Site

FY21 – no surveys proposed

Subject: Reminder: Action by 03/15/17: FY18-FY21 Survey Cost Estimates

Hello everyone,

This is a reminder that the submission date for your detailed cost estimates for FY18-FY21 is due in 2 days: **03/15/17**. We're asking you to develop a detailed cost estimate sheet (attached) for each of your region's Ocean Dumping surveys planned for FY18, FY19, FY20, and FY21. We will use this information to more effectively defend and utilize a consistent Ocean Dumping monitoring budget.

Please let me know if I can help or if you have any questions.

Best,

Juliette
